Business Continuity Policy Statement

This Business Continuity Policy Statement was approved by the Board of City Building (Glasgow) LLP at its meeting on 17 November 2026. The Board and the Executive Director of City Building (Glasgow) LLP accept the aims and provisions of the ISO 22301; 2019 which is the global standard for Business Continuity Management Systems (BCMS), providing a structured framework to help organisations protect against, prepare for, respond to, and recover from unexpected disruptive incidents.

The Board and Executive Director of City Building (Glasgow) LLP believe that the successful Management of Business Continuity contributes to the overall performance of the business. To achieve this aim we will: -

1. Review, evaluate and develop the Business Continuity Management System within City Building (Glasgow) LLP to best meet the needs of the organisation and our customers.

2. Develop a positive Business Continuity culture throughout City Building (Glasgow) LLP, by securing the commitment and participation of managers, supervisors, employees and their representatives.

3. Ensure that the Business Continuity Management System takes into account and complies with, so far as is reasonably practical, all relevant Legislation as they relate to the activities of City Building (Glasgow) LLP.

4. Ensure that Management are aware of their responsibilities and are made accountable for business continuity within areas under their control.

5. Plan to ensure the ongoing development and implementation of a risk assessment strategy related to the work activities of City Building (Glasgow) LLP. The purpose of this is to improve business continuity awareness and ensure provisions are taken to provide continued service to internal and external customers.

6. Make arrangements to put into practice the control measures that follow on from the risk assessment strategy. They will cover planning, risk profiling, organising, implementing, measuring, reviewing the performance of and learning lessons from the business continuity management system and to ensure measures are in place, working effectively and regularly monitored.

7. Make arrangements for the effective monitoring of the Business Continuity Management System through the provision of reviews, audit, GOLD training courses and internal training exercises and workshops to promote / communicate the importance

8. We will continue to take account of climate change in all our decision-making.

Policy review: This Business Continuity Policy Statement has immediate effect, replacing all previous versions. It will be subject to revision, at least every 3 years.
