Royal Strathclyde Blindcraft Industries (RSBi) is a distinctive organisation with unique resources and is the manufacturing division of City Building.

Specialising in a wide range of products, RSBi is also dedicated to making a difference in the community.

From its roots as a supported factory for the visually impaired, RSBi today is committed to providing opportunities for people with disabilities. RSBi is one of the country's leading examples of social enterprise, combining commercial success and quality products with socially responsible practices.

We operate from a 120,000 sq ft state of the art purpose built factory located in Springburn, Glasgow. The facility is well equipped with the latest automated machinery combined with a highly skilled flexible workforce operating to BS EN ISO 9001 quality assurance management system.

RSBi offers comprehensive design and manufacturing services for:

- Kitchen units, doors and adapted furniture for customers with individual needs.
- IPS cubicles and vanity units.
- Student and furnished accommodation furniture.
- Office and educational furniture.
- Bespoke storage solutions.
- UPVc windows and doors
- Curtain walling

Contract Furniture

RSBi has successfully delivered a number of contracts to supply furniture for student accommodation projects covering everything from bedroom furniture, beds and mattresses to soft seating and lounge furniture.

Kitchen

A kitchen is at the heart of every home. An appealing and attractive kitchen is high on the 'wish list' for everyone, whether private dwellings or in affordable housing. At the same time, a kitchen has to deliver in terms of performance, standing up to the daily rigours of constant use.

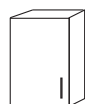

WHY CHOOSE RSBI KITCHENS?

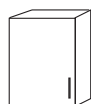

- Customers trust our brand for design appeal, durability and quality.
- Our design team offer total excellent customer service and support offering a complete package to meet your specific requirements.
- Customers can determine the quality and choices available through the provision of sample boards or at our showroom, while benefiting from our competitive prices.
- We have kitchens to suit every budget or design style whether traditional or contemporary which means you have the flexibility to create a unique tailor-made kitchen.
- We can also offer specific custom-designed ranges and specialist units for various special needs and assisted living adaptations.
- All our kitchens are manufactured in our factory in Glasgow and we offer a collection of work surfaces and accessories to enhance your kitchen experience.
- We only source timber from responsibly managed forests which are FSC certified and take our environmental impact and sustainability very seriously conforming to ISO 14001.
- As well as offering a 10 year guarantee, all cabinets are manufactured to comply with BS6222 (part 2) 1997 to level H (Heavy Domestic), with many ranges carrying the FIRA Gold Award certification.

Bespoke Product Design and Development

RSBi have a designated design team of CAD design engineers including an interior designer, to provide product development across our portfolio, as well as designing new or bespoke offerings. The design team are at the forefront of product development with the overall objective of offering customers contemporary and cost effective solutions.

We offer a comprehensive furniture solution to our customers through our in-house workforce and services:

- Design Team
- Manufacturing Capability
- Delivery Teams
- Installation Teams

This unique business model allows customers to have greater flexibility and control over their furniture projects and specific requirements, from space-planning and bespoke products to project managing the overall furniture package, all delivered by RSBi staff.

This cohesive approach provides customers with a wide range of services and benefits for their proposed furniture projects:

- Single point of contact – direct communication channels
- Project Management – from design to installation
- Fit-out & Refurbishment Projects – with our Installation Team
- Space Planning – direct from our Design Team
- Bespoke products – designed & manufactured inhouse
- Sustainability Programmes - Re-engineering existing products

Public Sector Reserved Contracts

RSBI is recognised as a supported business with over 50% of its workforce having a registered disability. Through the Scottish Procurement Dynamic Purchasing System (DPS), public sector organisations have the option to reserve contracts specifically for supported businesses. This enables Scottish public and third sector bodies to source goods and services while actively supporting inclusive employment for people with disabilities.

Furniture Specification

RSBi operates an effective Environmental Management System which has been certified to ISO 14001, as well as certification to the Furniture Industry Sustainability Programme (FISP) which is audited every two years on all aspects of sustainability such as environmental, social and economic issues.

We are FIRA Gold Certified which covers “BS 6222-2: 2009 + A1: 2017 Domestic kitchen equipment. Part 2:” and we test all mattresses and bed bases to “BS 7177: 2008 + A1: 2011 Medium hazard and high hazard”.

UPVC Window Specification

RSBi operates a uPVC window and door manufacturing factory helping create employment for long term unemployed ex veterans.

A full range of uPVC windows and doors suitable for both commercial and domestic applications are produced with all products being manufactured with multi-locking points to fully meet stringent quality standards in relation to security and weather performance.

The product range includes tilt and turn, casement and fully reversible window options complimented by external doors. All products are available in 56mm or 72mm profile options in a range of colours. A full measurement and survey service is also available.

City Building use Halo System 10 from VEKA PLC for UPVC profile Supplier.

System 10 is a fully integrated 70mm profile system constructed of 5 internal chambers offering superior weather and security ratings and feature a modern bevelled design.

These features lead to increased thermal performance which, coupled with low-e glass glazing system, offer significant reductions in heating costs and acoustic qualities.

All windows come with a multi-point stainless steel locking system that is secured into galvanised steel reinforcement for added rigidity and security. This allows highest performance handles, hinges and locking mechanism to be fitted to the units.

Windows can be either glazed with double 28mm or triple glazed 36mm glass sealed units with low emissivity coatings and safety glass that can be either toughened or laminate depending on location and are internally beaded.

Windows are manufactured with lead free and fully recyclable PVCu material. Whilst most clients prefer white profile, System 10 also has an assortment of colours and wood grains internally and externally and for aesthetic purposes windows are fitted with high quality concealed hinges.

Windows are supplied with trickle S vents and is the most popular choice for passive ventilation provision in new and refurbishment projects.

City Building windows are fully compliant with CE performances and are a Secure by Design Licence Holder and are also BS Kite marked for BS 7412 PVC-U Window Fabricators and BS 7412/Pas 24 Enhanced Security PVC-U Window Fabricators.
