We will play a key role in supporting our members to address our common priorities through our unwavering focus on resident/customer resident satisfaction, resident/customer value and resident/customer trust. In doing so we will be recognised by our residents, customers and partners as playing a significant role in making Glasgow a great place to live.</p>			

Role Summary

The Gas Engineer is a valued member of the Operations Division, working within our modernised Responsive and Emergency Repairs Service.

This role predominantly involves working on our gas maintenance programme, utilising handheld technology, controlling material van stock to allow a "get it right first" approach whilst demonstrating excellent customer service to a variety of clients.

You will be required to operate across the Glasgow and Central belt areas. You will be expected to undertake landlords gas safety checks, servicing, breakdowns, and reactive repairs.

You will be expected to have a proactive focus on achieving our regulatory timescales, ensuring the needs and safety of our customers is always the paramount considerations of our service provision.

You must be fully conversant with up-to-date issues relating to the gas industry. You will be required to use our mobile handheld technology systems daily flexibility will be required as hours may vary to suit the needs of the business and would be advised to you in advance.

You must ensure that the works you carry out are conducted safely, and you deliver exceptional customer service for our clients at all times, including care for the property and your area of work.

You will be expected to have a "get it right first" approach to works, you will be expected to conduct all works to the highest standards of safety, and quality.

You will carry out all aspects of these works in line with the current building standards, ensuring compliance with all health and safety legislation, and all relevant City Building policies.

You will be responsible for ensuring that all materials, plant, and tools necessary to complete jobs are available, and that stocks are replenished and are controlled. You will be expected to ensure your material stock inventory is up to date at all times.

At the date of preparation this role profile provides a comprehensive overview of the position. It is not an exhaustive list of all possible duties, and it is recognised that this role may evolve over time. Consequently, this is not a contractual document, and the post holder will be required to perform any other duties to the equivalent level that are necessary to fulfil the purpose of the job.
